# Waischenfeld Research Campus

# The Research Campus: Focused and stimulating

The Waischenfeld Research Campus is a conference and retreat location for groups from public institutions, associations and clubs. Its rural tranquility allows guests to focus on seminars, conferences or team training, as well as to strengthen groups and cultivate networks. The Research Campus is part of the Fraunhofer Institute for Integrated Circuits IIS.

Certified for its healthy air, the town of Waischenfeld is home to about 3000 people. It is located about a 90-minute drive from Nuremberg through the captivating landscape of Franconian Switzerland.

## The setting: Relaxing and fun

---

The premises include 4000 m<sup>2</sup> of outdoor space – as suitable for team training as it is for recreation. In the evenings, guests can gather at the outdoor firepit or the boules court. Hiking trails start from right behind the campus – ideal for a jog or a relaxing stroll.

A popular tourist destination, Franconian Switzerland offers plenty of opportunities for day trips and outdoor activities. You can hike, climb, kayak, explore caves, visit a high ropes course or tour private breweries. The campus team will be happy to assist you in planning and booking the activities of your choice.

## The services: Bespoke and friendly

---

A family-like atmosphere awaits you at the campus.

The staff are happy to facilitate and assist – whether it's setting up an impromptu picnic for a group of colleagues or moving a meeting outside. For the campus team, fulfilling individual wishes is part of the concept.

You can arrange the catering to suit your event, from a simple menu to a four-star meal with servers. The ingredients come mostly from the region and are selected according to the season.

### Contact

# The conference and meeting rooms: Professional and relaxing

---

The Research Campus hosts groups of various sizes: the largest meeting room can accommodate 120 people, while the other rooms adapt to different numbers of participants thanks to mobile partitions. You can also make use of individual or two-person offices.

All meeting rooms are professionally equipped with screen, pinboard, flipchart, projector and presentation kit. A service employee will assist you with any technical issues, and wireless Internet is accessible throughout the facility.

The Research Campus offers 47 single guest rooms that are designed to be functional and feature high-quality fixtures. Large windows invite the peace and tranquility of the natural surroundings inside.
